

SAFETY & HEALTH GUIDELINES

Updated May 25, 2020. We will update according to the policies dictated by our local, state and federal health authorities.

Safety

- Students will be segmented into groups of no more than 8 children per room; non-siblings will be spaced out at a minimum of six (6) feet apart.
- Each group of children will not be allowed to intermingle with other groups.
- Drop off and pick ups will take place outside to ensure adequate social distancing. We ask that no more than 2 adults are present at pick up and drop off, and if a line is necessary to please respect social distancing instructions set-up by camp personnel.
- Camp personnel will be asking parents when signing-in their child to verify that their child is symptom free.
- Campers temperatures will be taken at drop off, with a no touch thermometer. Additional drop off and pick up procedures will be communicated on the first day of camp.
- Each child will have their own personal camp supply kit to use during camp; supplies will not be shared.

Hygiene

- Children will be asked to wash their hands for 20 seconds, every two hours.
- Staff, Teaching Artists, and volunteers are required to wash their hands for 20 seconds, every two hours.
- WVMCC will provide hand-sanitizer for adults and children to use when they enter the building.
- There will be restrooms and sinks reserved specifically for each camp classroom. If parents or other members of the public do need to use the restroom, we ask that they use one of the other four restrooms that will be available for public use.
- The rooms, restrooms, and other high touch spaces will be wiped down between each camp session and fully disinfected every day.
- At the beginning of each camp session, campers will be reminded and trained on proper handwashing procedures. Campers will also be provided with alcohol wipes to wipe down their personal space.

Measures to Protect Employee and Campers Health

- We ask parents to take their children's temperature at home and if their child has a fever of 100.4 or more to please keep them home.

SAFETY & HEALTH GUIDELINES – PAGE 2

Measures to Protect Employee and Campers Health (Continued)

- Touchless symptom checks are being conducted before employees and campers may enter WVMCC and If your camper is ill they will not be able to participate in camp.
- Our staff will take temperatures of each camper at camp drop off and at lunch break.
- Any camper who arrives with a temperature of 100.4 will be sent home with parents at drop off. If a child has a temperature of 99, they can be dropped off, but they will be monitored through out the session with temperature checks every 15 minutes. If their temperature increases the child will be separated, and parents called to take their child home.
- Children MUST be fever free for 72 hours to return or attend camp.
- All employees will be required to stay home if sick.
- Staff are required to wear face masks, as appropriate.
- Campers are strongly encouraged to wear face masks, as appropriate.
- Any staff using break rooms, bathrooms, and other common areas will be asked to wash their hands before and after use. They will also be provided with disinfectant wipes to use on all surfaces they come in contact with. In addition, these areas will be sanitized daily or as dictated by the level of use and number of staff and volunteers present in the build during that day.
- We will provide contactless payment, registration, and check-in/out systems or, if not feasible, we sanitize payment registration, or check-in/out systems regularly.
- Campers should bring their own lunch (if attending morning and afternoon sessions), snacks, and reusable water bottle.
- Due to the strict guidelines required by the government, WVMCC will not provide snacks or drinks for camp; we do have a water dispenser for water bottle refills that will be regularly disinfected and assistance will be provided to our campers who have physical limitations.
